

Mountain Amateur Radio Club
Minutes of the Meeting
19 October 2016

Our meeting began at 1906, with Dean Buckhouse presiding. Following introductions all around the room, the minutes of the previous meeting were read. A motion to accept the minutes was seconded and passed.

Laird Johnson, the club treasurer, then read the report for September and October. Asa Wilson noted that many people pay their dues at the Christmas party.

Under Old Business, Dan Huber is working on a Google Docs inventory list.

Under New Business, the Cheyenne Mountain Repeater Group will have it annual meeting on October 29, 10a at the Falcon Substation.

We had a discussion on active members. This list is not published on our website, and we do need to work on the Yahoo Groups list.

Dan Huber would like a new Net Control script. The one on the website is many years old.

Mark Gerschefski gave a report on the Dstar repeater. The controller would be \$850 and the RF module would add \$750. We will need to check with the frequency coordinators for available VHF or UHF pairs.

Dan Huber indicated that we will need an internet connection for either the Dstar repeater or WiFi repeater, and we talked about where we could put these.

Asa Wilson gave a presentation on printed circuit board fabrication.

Our meeting adjourned at 2039.

Seven members, two guests present
