

**Mountain Amateur Radio Club  
Minutes of the Meeting  
20 November 2019**

Our meeting began at 1900 with Ed Bretag presiding. Following intros around the room, the minutes of the October meeting were read, motioned and passed.

Our Treasurer, Laird Johnson, then gave his report.

We had various discussions on the old reflector problems, the new reflector and the move between.

A head count was made for the Christmas dinner at Mexicana.

The howling at the Badger repeater was diagnosed to the antenna feed line. We switched over to the spare feed and all is ok.

We discussed attaching our repeater system to EchoLink.

The remaining cable and grounding work at the Tenderfoot tower will probably be early spring.

There were three sections of the old tower from Tenderfoot, that are still usable.

We discussed putting a radio, antenna and perhaps a DMR radio at the Hospital in Divide.

Dan Huber is looking at putting up an APRS iGate.

Our meeting adjourned at 1945.

14 members, one guest present.

Submitted by Bill Wallick (KC0FNV), Secretary.
