

**Mountain Amateur Radio Club  
Minutes of the Meeting  
15 January 2020**

Our monthly meeting began at 1900, with Ed Bretag presiding. Following introductions around the room, the minutes of the previous meeting were read. A motion to accept them was made, seconded and passed.

Next Laird Johnson gave the Treasurer's report.

Next was our Repeater Report. As the weather improves, we still need to make a trip to Badger Mountain. We are currently operating on the "lower" antenna, and need to fix that.

We discussed the county budget dollars and some thoughts for the coming year.

Dan Huber gave an update on the plans for our Winter Field Day, January 25 and 26. Dan is also working on a APRS digipeater at his home.

The old Tenderfoot Mountain tower sections were delivered to Bjorn.

Our meeting adjourned at 1921.  
15 members and 2 guests present.  
Submitted by Bill Wallick (KC0FNV), Secretary.
